Podcasts for teachers

The podcast “Most Recent History, Latest Technologies” was created primarily as a support for educators who would like to start or continue introducing new technology-based teaching methods and projects into their classrooms. Each of the podcasts focuses on a different topic, for example virtual and enhanced reality, metaverse.The episodes are scheduled to be broadcast on 15, 17, 19, 22, 24, and 26 May 2023 on Radio Gdańsk and the Spotify channel “Most Recent History, Latest Technologies” at 5:35 pm.The podcast series has received the honorary patronage of the Minister of Education and Science and the patronage of GovTech and MeinTech.
