Inauguration of the Mobile Stop during the European Night of Museums

Inauguration of the Mobile Stop during the European Night of Museums

On 12 May, the New Technology Division took part in this year's edition of the European Night of Museums, presenting the Future History Mobile Stop in Olsztyn. After the opening at 6 p.m., visitors had the chance, until 1 a.m., to use VR stations with the "Cyphers Game" and "Szybowcowa '87" and a PC with the "Cyphers Game", as well as to watch hologram visualisations of the figures of Jan Kowalewski, Andrzej Gwiazda and Krzysztof Wyszkowski. [gallery link="file" ids="9600,9582,9604"] On the following night, that is on 13 May, a Night of Museums was held at the Białystok branch of the Institute of National Remembrance and at the Archives of the Institute of National Remembrance in Warsaw on Kłobucka Street, where visitors could use the VR and PC stations with the "Cyphers Game" and „Szybowcowa '87". For the last meeting with the "Cyphers Game" and "Szybowcowa '87" as part of the International Night of Museums events, join us at the Kraków Branch of the Institute of National Remembrance on 19 May, where – like in Olsztyn and Białystok. Come and explore!
