"Kommunar" - the armoured train

Do you know that the "Kommunar" armored train could be short or full? Take a look on our virtual 3D model and find out differences beetwen both of them.

Model 3D – Sketchfab

"Kommunar" - the armoured train

A shortened version of the Bolshevik armoured train "Kommunar". Consisting of a locomotive and two wagons armed with cannons, the train was a dangerous weapon. The full consist had an additional two armed wagons. The armoured train was followed, at some distance, by a supply and repair depot.
