New Technology Division

Join us for our Family Saturday in the New Technology Zone at the Central History Point

Join us for our Family Saturday in the New Technology Zone at the Central History Point

Spend an interesting day with your family in the New Technology Zone. Learning history together tastes even better. Find out how enjoyable learning through new technologies can be. We invite you to the Central History Point at ul. Marszałkowska 107.

Family Saturday in the New Technology Zone

Saturday morning or afternoon? It does not matter! What matters is that we are together; what matters is that we are in the New Technology Zone. Bring your family and take part in an immersive history lesson where you will learn historical trivia, facts and the most important achievements of Polish heroes. An immersive history lesson is a time when, by participating in the educational projects of the New Technology Division, you learn through play. The New Technology Zone offers:

as many as 3 ORB X GamePod gaming capsules. They are futuristic, state-of-the-art devices that take gaming experience to another level. Each capsule is equipped with a comfortable chair, three monitors and high-quality peripheral equipment. In the capsule you can play all gaming projects of the New Technology Division released on PC.

2 VR (Virtual Reality) stations. There are sets consisting of two controllers and goggles. Thanks to virtual reality technology, you can be transported directly to the reality of the presented project. VR stations are available to all guests over 13 years of age.

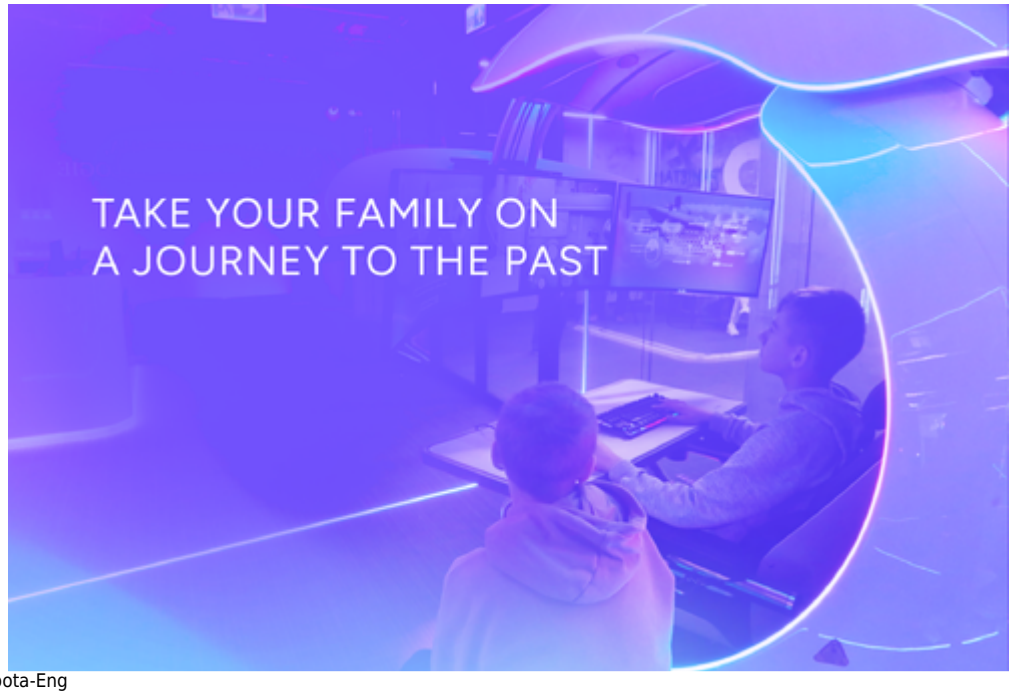

What are the projects of the New Technology Division at the Institute of National Remembrance?

Educational projects of the New Technology Division at the Institute of National Remembrance include games and applications developed for PC, VR and even mobile devices. You can discover all these projects in the New Technology Zone. They are also available for free on Steam. This way, you can continue having fun at your home completely for free.
