Support for flood victims as part of the Future History Mobile Stop

Support for flood victims as part of the Future History Mobile Stop

Due to the situation in the Jelenia Góra region and the declaration of a natural disaster in the final location of the Future History Mobile Stop tour, we have decided to organize a collection of cleaning and household supplies in each of the three previous towns on the tour.

Support the collection for flood-affected individuals

In consultation with the local authorities of Jelenia Góra, we have identified that cleaning and household supplies are most needed. The collection will take place every day in each of the three previous locations:
21-23 September: Kalisz
24-26 September: Gostyń
27-29 September: Sława
Future History Mobile Stop operates from 10:00 AM to 8:00 PM.

Help for the affected residents of Jelenia Góra and its surroundings

The final stop of the Future History Mobile Stop tour will be in Jelenia Góra, where we will stay for three days starting on 30 September. It is during this stop that we will distribute the collected donations to the local residents. We hope that, together, we can assist the people of Jelenia Góra and the surrounding areas who have been affected by the flood.

How to participate in the collection?

Simply bring the cleaning and household supplies you wish to donate to the Mobile Stop: History of the Future. The staff on site will guide you, accept the donations, and you can then participate in an immersive history lesson. Participation in the collection is entirely voluntary, and entry to the Future History Mobile Stop is free for everyone. We encourage you to show your support and donate cleaning supplies to those affected by the natural disaster.
