Celebrating the Home Army Day with an mobile chest

Celebrating the Home Army Day with an mobile chest

The National Day of Remembrance of the Soldiers of the Home Army was celebrated in Opole with grandeur. Among the invited guests was Mrs. Helena Kamerska, codename "Hala," a participant in the Warsaw Uprising. Mobile cases for immersive historical education were featured during the event, which was attended by over 50 people.

Commemorating the 83rd anniversary of transforming the Union of Armed Struggle into the Home Army – celebrations in Opole

The celebrations marking the 83rd anniversary of the transformation of the Union of Armed Struggle (ZWZ) into the Home Army (AK) were held at the Social Activation Center in Opole.

The event was divided into two parts: a discussion session and a workshop.

The discussion began with a screening of the IPN documentary "*The Home Army – An Army Like No Other.*" Following the screening, Helena Kamerska, a medic during the Warsaw Uprising, shared her poignant memories, prompting deep reflections among the attendees about the historical events.

Immersive historical education cases at the ZWZ to AK transformation commemoration in Opole

The workshop part of the event revolved around the use of mobile cases showcasing educational projects from the New Technology Division. Special attention was given to the game "*Warsaw Rising,*" which delves into the story of the Warsaw Uprising. The game educates about Poland's history, fosters civic attitudes, and develops empathy and logical thinking. Additionally, participants had the opportunity to decorate fabric bags with the emblem of Fighting Poland by hand.

Mobile chest featured in the "Strong with Poland!" project

On February 21, the Opole branch of the IPN hosted participants of the nationwide project "*Strong with Poland!*" Workshops included the use of mobile cases to present projects from the New Technology Division, such as "*The Cyphers Game,*" "*Aviators – War in the Skies,*" and "*Szybowcowa'87.*"
