Steam or GOG? Choose the platform that suits you best – now also on GOG

Steam or GOG? Choose the platform that suits you best – now also on GOG

You can now download the educational projects of the The New Technology Division of the IPN from GOG! The choice is yours – select the platform that is more convenient for you. All our projects are available for free download on both Steam and GOG. Take advantage of it today.

Three projects now available on GOG

Add them to your library and download them for free:

Warsaw Rising – a strategy game set during the Warsaw Uprising. Your task is to complete missions, support the fighting city of Warsaw, and lead soldiers through all 63 days of combat;

- Download on GOG

Świadectwo poMOCY – a VR cinematic experience. The project tells the story of the Blessed Ulma family, who sheltered Jews during World War II. The story is presented from the perspective of six-year-old Basia, the daughter of Józef and Wiktoria Ulma;

- Download on GOG

Szybowcowa ’87 – a VR application that transports you to an apartment in a communist-era block of flats in Wrocław, which served as the headquarters of a secret printing house of Fighting Solidarity. There, you will duplicate underground independence press publications and listen in on Security Service (SB) officers’ radio conversations;

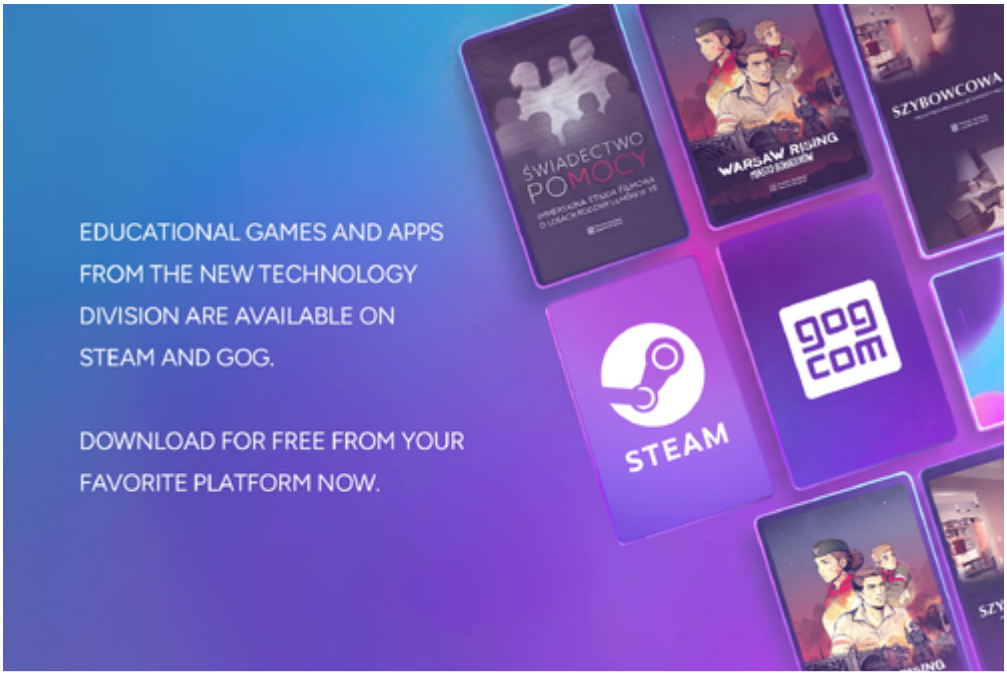

- Download on GOG

Looking for the entire library of games and applications created by the The New Technology Division of the IPN in one place? You’ll find all our projects on Steam!

The same projects, greater convenience

Can you add the same project to both your Steam and GOG libraries? Absolutely! Expand your virtual shelves on both platforms and enjoy the educational games and applications of the The New Technology Division completely free of charge.
