

## **The New Technologies Zone at the 'Taste and Folklore' Festival in Kałuszyn**

At this year's 'Taste and Folklore' Festival held on 11 June at Kałuszyn's Karczunek Reservoir, between 12 p.m. and 7 p.m., the tent of the Institute of National Remembrance's New Technologies Zone was set up, among others. Our stand was located next to the ecological sensory path of the State Forests and the stand of the Communication and Water Education Team of the Polish Waters State Water Holding. We were present at the festival thanks to an invitation from the Aktywny Mińsk Mazowiecki (Active Mińsk Mazowiecki) Foundation.

The festival attracted 30,000 people. He was also visited by Prime Minister Mateusz Morawiecki. Our stand was visited in large numbers by entire families. Representatives of the Rural Women's Circles were also among the guests. As at the zoo festival, the most impressive thing for the youngest visitors was to see on the screens what the adults were seeing in the 'Szybowiec '87' (Glider '87) application. Older youths eagerly took on the challenges posed by the 'Cyphers Game'.
